Board of Directors Orientation

Credit Union Chartering

- In 1934, the Federal Credit Union Act was signed into law.
- A federal credit union is a cooperative non-profit financial institution organized to provide its members with a place to save and a source of loans at reasonable rates.

Credit Union Chartering

- It is a corporation chartered under the Federal Credit Union Act to serve groups having a common bond of occupation or association, or groups within a well-defined, local neighborhood, community, or rural district.
- After an organization certificate, filed by the subscribers of a proposed federal credit union, is approved by NCUA; the document becomes the credit union's official charter.

Credit Union Chartering

- Credit unions are organized under a dualchartering system of federal and state laws.
- Both types are characteristically similar in purpose: to promote thrift among their members and to create for them a source of credit at reasonable interest rates.

The National Credit Union Administration

- NCUA prescribes rules and regulations for the organization and operation of federal credit unions.
- The principal method by which NCUA carries out its supervisory responsibility is through on-site risk-focused examinations.
- These examinations are designed to determine the risk to the NCUA Share Insurance Fund.

The National Credit Union Administration

- The risk-focused examination objectives include determining whether a credit union is financially sound and whether operations are conducted in compliance with applicable laws and regulations.
- The Federal Credit Union Act places the responsibility for auditing the credit union on the supervisory committee.

The National Credit Union Administration

The board is responsible for taking necessary corrective actions, and the supervisory committee has the duty to ensure the board corrects identified problems.

Bylaws

- Once adopted by the board of directors, the standard Bylaws become the official Bylaws of the credit union.
- Standard bylaw amendments may be adopted by the board of directors without further NCUA approval.
- Applications for approval of non-standard amendments should be forwarded to the appropriate regional director for consideration.

Membership

- Eligibility for membership in a federal credit union is limited to the persons and organizations sharing the common bond described in the credit union's field of membership, as set forth in Section 5 of its charter.
- Regular and special meetings of the members are held in accordance with Sections 110 and 118 of the *Federal Credit Union Act* and Articles IV, V, and X of the Bylaws.

Board of Directors

- They provide general direction and control of the credit union, and must meet at least once a month.
- The board elects the credit union's officers from its own number.
- The board of directors appoints the credit union's supervisory committee

Board of Directors

The board may appoint a management official and one or more assistant management officials.

Sections 111, 112, and 113 of the Federal Credit Union Act and Articles VI and VII of the Bylaws describe the duties and powers of the directors, board officers, and employees.

§ 1761 § 111 Management; board of directors; credit committee; supervisory committee; compensation. —

Article VI. Board of Directors

- Appointing one or more loan officers and delegating to those officers the power to approve or disapprove loans
- If a director fails to attend regular meetings of the board for 3 consecutive months, or 4 meetings within a calendar year, or otherwise fails to perform any of the duties as a director, the office may be declared vacant by the board and the vacancy filled as provided in the bylaws
- Any member of the supervisory committee may be suspended by a majority vote of the board of directors

Article VII. Board Officers, Management Officials and Executive Committee

- The board officers of this credit union are comprised of a chair, one or more vice chairs, a financial officer, and a secretary, all of whom are elected by the board and from their number
- The chair also performs such other duties as customarily appertain to the office of the chair or as may be directed to perform by resolution of the board
- The board must approve all individuals who are authorized to sign all notes of this credit union and all checks, drafts and other orders for disbursement of credit union funds

Article VII. Board Officers, Management Officials and Executive Committee

- The financial officer manages this credit union under the control and direction of the board unless the board has appointed a management official to act as general manager
- Ensure that such financial and other reports as the Administration may require are prepared and sent
- Within standards and limitations prescribed by the board, employ tellers, clerks, bookkeepers, and other office employees

Article VII. Board Officers, Management Officials and Executive Committee

- The board may appoint a management official who is under the direction and control of the board or of the financial officer as determined by the board
- The secretary prepares and maintains full and correct records of all meetings of the members and of the board, which records will be prepared within 7 days after the respective meetings

Article VII. Board Officers, Management Officials and Executive Committee

- The board may appoint an executive committee of not fewer than three directors to act for it with respect to specifically delegated functions
- The board may also authorize such executive committee or a membership officer appointed by the board to approve applications for membership

NCUA LETTER TO CREDIT UNIONS

NATIONAL CREDIT UNION ADMINISTRATION 1775 Duke Street, Alexandria, VA 22314

DATE:	March 2008	LETTER NO .: 08-CU-04
TO:	Federally Insured Credit Uni	ons
SUBJ:	State of the Credit Union Ind	lustry as of December 31, 2007
ENCL:	Financial Trends in Federall January 1 – December 31, 20	2

Dear Board of Directors:

Enclosed is a report highlighting credit union financial trends for 2007. We based our analysis on data compiled from the quarterly call reports submitted by all federally insured credit unions.

The financial condition of the credit union industry remains sound, as indicated by high net worth levels. Consistent with the last several years, the majority of the loan growth in 2007 came from the real estate sector. Delinquency, especially in the real estate portfolio, increased significantly during 2007. It is important to note the increases in delinquency, though substantive, do not threaten the overall safety and soundness and stability of the credit union industry.

Credit unions with a large or increasing real estate loan portfolio need to maintain vigilance in their asset-liability management and liquidity management planning processes, as well as address the credit risk implications in light of ongoing developments in the real estate sector of the market. All credit unions need to ensure the loans they make reflect not only the needs of the members but also the risk profile of the credit union in order to control future losses.

Thank you for your cooperation in submitting your financial and statistical data in a timely manner.

Sincerely,

JoAnn Johnson Chairman

FINANCIAL TRENDS IN FEDERALLY INSURED CREDIT UNIONS

January 1 - December 31, 2007

HIGHLIGHTS

This report summarizes the trends of all federally insured credit unions that reported as of December 31, 2007. Change is measured from December 31, 2006.¹

- Assets increased \$43.46 billion or 6.12% to \$753.46 billion.
 DFFCU = 4.04%
- Net Worth increased \$4.32 billion or 5.28%. The net worth to assets ratio decreased from 11.53% to 11.44%. [DFFCU = 10.98%]
- Earnings, as measured by the return on average assets, decreased from 0.82% to 0.65%.² DFFCU = 0.44%
- Loans increased \$32.54 billion or 6.58%. The loan to share ratio increased from 82.23% to 83.32%. DFFCU = 75.88%

Number of Credit Unions Reporting						
	Federal CUs	State CUs				
2002	5,953	3,735				
2003	5,776	3,593				
2004	5,572	3,442				
2005	5,393	3,302				
2006	5,189	3,173				
2007	5,036	3,065				
DFFCU = 0.63%						

- Delinquent loans as a percentage of total loans increased from 0.68% to 0.93%. Delinquent real estate loans as a percentage of total real estate loans increased from 0.34% to 0.67%.
- Net Loan Charge-Offs increased \$397.86 million or 18.38%.

- Shares increased \$31.21 billion or 5.19%. The majority of the growth in shares continues to come from share certificates and money market accounts.
- Current members increased by 1.1 million or 1.27%. DFFCU = 1.42%

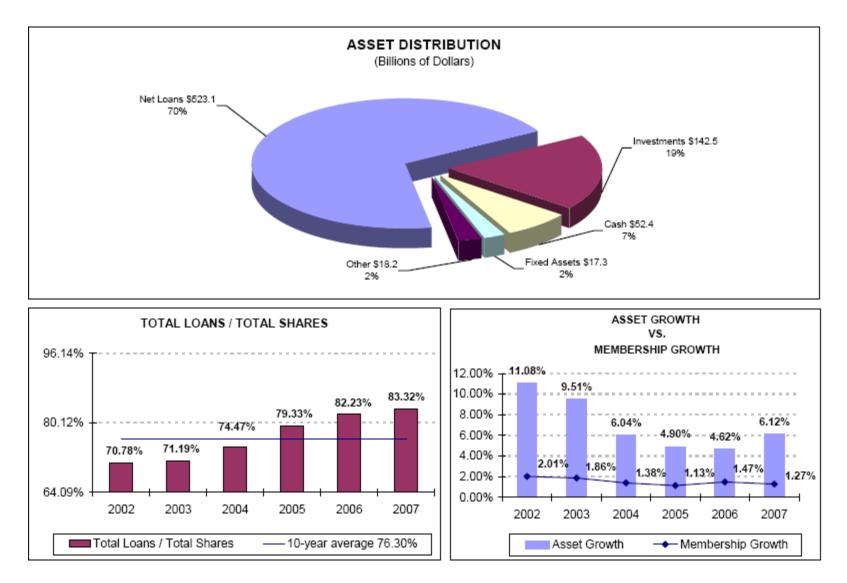

Overall, federally insured credit unions continued their solid performance in 2007. Loans, shares, and net worth grew; however, the delinquent loan ratio increased 25 basis points and the loan loss ratio increased 5 basis point indicating increasing potential concerns in credit quality of loan portfolios. While net interest margins continued to decline, credit unions achieved favorable operating results. Real estate loans remain the dominant loan category in credit unions, highlighting the need for continued vigilance in underwriting and sound asset-liability management practices.

Net Worth remains strong as total dollars increased \$4.32 billion or 5.28% during 2007. The number of credit unions subject to Prompt Corrective Action, as a percentage of total credit unions, decreased from 1.52% as of December 31, 2006, to 1.41% as of December 31, 2007.

EARNINGS

The level of earnings declined 17 basis points during 2007. However, the level continues to be effective, covering the cost of operations as well as contributing to the already solid level of net worth. Net interest margin contracted 5 basis points to 3.11% as the cost of funds increased at a faster rate than the yield on assets. Operating expenses and Provision for Loan & Lease Losses continue to rise in relation to average assets, with the increased funding of the Allowance for Loan & Lease having the largest impact on the reduced Return on Average Assets level.

Total Loans	\$494.39		\$526.92		\$32.54	6.58%

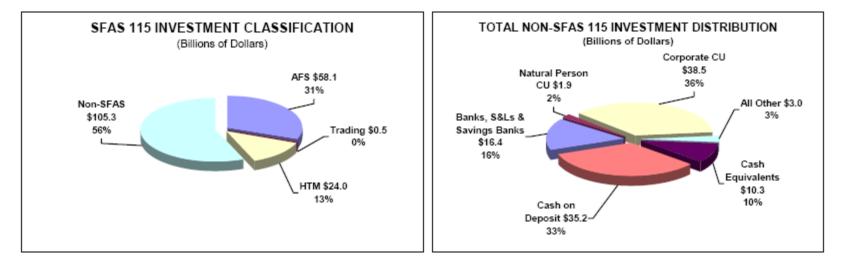

Loan growth outpaced share growth during 2007 with total loans increasing \$32.54 billion, resulting in the loan to share ratio increasing from 82.23% to 83.32%. The growth was again fueled by first mortgages and other real estate loans. Real estate loans comprise the largest portion of total loans at 51.45%, followed by vehicle loans at 33.40%. During 2007, fixed rate first mortgages increased \$13.08 billion (14.40%), adjustable rate first mortgages increased \$1.08 billion (3.90%), and balloon/hybrid first mortgages increased \$5.46 billion (13.23%). Credit unions are reporting \$6.25 billion or 3.48% of total first mortgage loans in Interest Only & Optional Payment First Mortgage Loans.

DELINQUENCY TRENDS

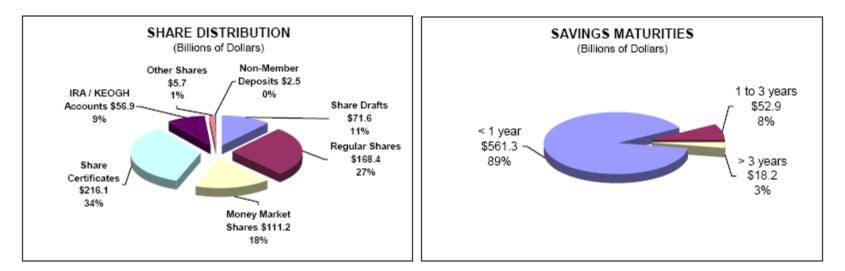

The quality of the loan portfolio deteriorated as noted by a 25 basis point increase in delinquent loans to total loans during 2007, while the average net charge-off ratio increased 5 basis points. There are signs of stress in the performance of real estate loans, and the increasing real estate delinquency and loan losses are starting to impact the performance of the overall loan portfolio, as noted in the total delinquency and net charge-off numbers. Total delinquent real estate loans greater than 2 months increased from 0.34% at year-end 2006 to 0.67% as of year-end 2007. All real estate delinquency categories increased with the largest being in Other Real Estate Adjustable Rate loans which increased from 0.36% as of year-end 2006 to 0.80% as of year-end 2007.

INVESTMENT TRENDS

Investment Maturity or Repricing Intervals	2006 In Billions	% of Total Investments	2007 In Billions	% of Total Investments
Less than 1 year	\$105.83	2006 58,96%	\$111.66	2007 59.41%

5 to 10 years	\$5.17	2.88%	\$7.58	4.03%
Greater than 10 years	\$2.11	1.17%	\$2.74	1.46%
Total Investments	\$179.51		\$187.94	

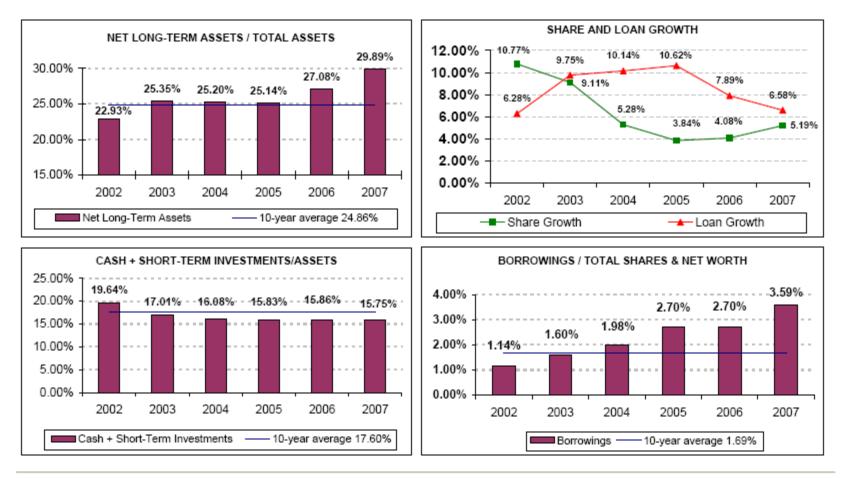

Strong loan demand outpaced share growth, decreasing the amount of funds available for investment in 2007. The maturity structure of the investment portfolio remains very short, resulting in a low interest rate risk profile for this portion of the balance sheet. Credit unions maintain their investments in high quality, safe instruments. Almost 56% of investments are in cash or equivalents, deposits in corporate credit unions, and deposits in other financial institutions. These provide liquidity and are generally not vulnerable to changing market values. Of the remaining investments, which are subject to SFAS 115 classification, 83.42% are in U.S. Government or Federal Agency Securities.

Total Shares	\$601.19		\$632.40		\$31.21	5.19%

Total shares grew 5.19% or \$31.21 billion in 2007. The trend of the movement to rate-sensitive shares continued in 2007 with strong growth in money market shares, IRA/KEOGH accounts and certificates accounting for the majority of the growth. During the period, regular shares declined overall. Total share certificates continue to be the largest category exceeding regular shares since it first occurred on December 31, 2006.

ASSET LIABILITY MANAGEMENT TRENDS

Credit unions continue to hold adequate levels of liquidity; however, trends are showing tightening liquidity. The decline in cash and short-term investments during 2007 is due to the strong loan growth outpacing share growth. The net long-term asset ratio of 29.89% presents potential interest rate risk exposure. Credit unions with higher levels of liquidity risk or interest rate risk must maintain diligent risk management procedures.

Note: The growth trends are based on the same FICUs reporting 12/31/06 and 12/31/07 using assets as of 12/31/07.

There is a distinct difference in the performance among the different asset groups. Net worth ratios are solid among all asset groups with the largest percentages being reported in the under \$10 million category. The highest return on average assets, loan growth, share growth, membership growth, and loan to share ratio is noted in the over \$500 million asset group.

Dayton Firefighters Federal Credit Union

Asset/Liability Management and Net Economic Value

Ronald W. Boehnlein, CPA Chief Financial Officer

Asset/Liability Management

- Definition
- Objectives
- Asset/Liability Committee (ALCO)
- Sources and Uses of Funds
- Risks
- NEV and Interest Rate Risk Measurement

ALM Definition

- Process of managing the composition and pricing of a credit union's assets and liabilities
- Controlling the exposure to financial risk with the goal of maximizing efficiency of capital over the long term

ALM Objectives-Typical CU

Balance the diverse needs of members

Generate sufficient income to cover:

- Dividends and Interest
- Operating Expenses
- Planned Capital Accumulation
- Maintain sufficient liquidity
- Make safety a primary consideration

Asset/Liability Committee

- Typically comprised of management staff
- CEO
- Finance Executive
- Lending Executive
- Marketing Executive
- Operations Executive

Sources of Funds

- Members' Deposits
- Capital-Undivided Earnings and Reserves
- Temporary Borrowing
- Term Borrowing

Uses of Funds

- Loans to Members
- Investments
- Fixed Assets
- Cash (Change Fund, Transaction Accounts)

ALM Risks

Interest Rate Risk
Liquidity Risk
Credit Risk
Operating Risk

Interest Rate Risk

- Primary focus of ALCO and ALM decisions
- Mismatch between maturities or durations of assets and liabilities
- Option Risk
- Basis Risk

Liquidity Risk

Availability of Funds to meet Cash Flow needs as they arise

- Increase in Loan Demand
- Outflows of Deposits

Credit Risk

- Loss of Principal due to default
- Defaults on Loans
- Defaults on Investments
- Downgraded rating on an Investment

Operational Risks

- Fraud and Employee Theft
- Natural Disasters
- Fire
- Intentional Destruction of Property/Data
- Liability Lawsuits
- Hackers
- Inefficient Operations

Measuring Interest Rate Risk

Typical Credit Union Measures: Rate Sensitivity Gap Analysis Spread Analysis (Historical/Future) Asset Valuation (Shock Analysis)

Measuring Interest Rate Risk

NCUA Recommended Additional Methods: Net Interest Income (NII) Simulation Duration Gap Analysis Net Economic Value (NEV)

Net Interest Income Simulation

Simulate impact of changes in interest rates of up and down 100, 200, and 300 BP
Simulation must be dynamic
Assumptions change with level of interest rate shock

Duration

Simple Duration:

 Present value of weighted average maturity of cash flows

Modified Duration:

 Quantifies the price/yield sensitivity of an instrument

Duration

Effective Duration:

- Expected change in price of an instrument given a parallel shift in the yield curve
- Gives consideration to cash flow changes as the interest rate changes

Duration GAP Analysis

- Simulation must be dynamic
- Cash flows change with level of interest rate shock
- Duration of Equity is the degree of mismatch between duration of assets and liabilities

Net Economic Value

Present Value of Assets

Present Value of Liabilities
+ Net Market Value of Off-Balance

Sheet Contracts

Net Economic Value

- Measures changes in economic value for substantial changes in interest rates
- Typically shocked plus and minus 100, 200 and 300 BP
- Measures volatility in the credit union's balance sheet

NEV - Measurement

- Estimate cash flows under each interest rate scenario
- Determine the appropriate discount rate for each cash flow (yield obtainable in the market for a cash flow with similar maturity and risk
- Use an option-based pricing model

Simulation Testing Example

Scenario	NEV	NEV Ratio	NEV % Change	Annual Net Int Income	Annual NII% Change
Policy Limit	47,850,202	2.00	-25.00%		Unange
-300	68,413,251	4.06	7.23%	7,950,786	28.97%
