

You're not alone with NCOFCU!

With the number of small credit unions shrinking day by day from closures and mergers it is essential that you know that the [National Council of Firefighter Credit Unions Inc. \(NCOFCU\)](http://www.ncofcu.org) is here for you!

NCOFCU is an exclusive network (have been meeting since 2000) of credit unions primarily serving over 800 thousand firefighters, first responders, and their families. Our collaborative effort is to assist the volunteers and staff of credit unions serving firefighters and first responders with their operational and educational needs and to promote the importance of first responder credit unions to the credit union community.

NCOFCU's peer two peer networking relationships bring together,

- credit union staff & volunteers with the same employment backgrounds,
- field of membership, and
- financial & educational needs

Through NCOFCU's exclusive network and annual conference, credit unions serving first responders are available to assist fellow credit unions in making operational decisions such as;

- field of membership expansion
- products and services
- both staff and volunteer succession planning
- possible first responder network merger solutions
- Recommended Business Partners

NCOFCU's board of directors and membership is made up of credit union executives and volunteers from across the country of all asset and membership sizes. It is this diverse makeup that brings forth our goals and objectives that we hope will assist credit unions, serving first responders, to continue to survive and support their memberships.

Please take this opportunity to visit our website www.NCOFCU.org, and look at the many member benefits, services, and conference scholarships available to you.

“Gold” membership includes one conference registration!
